Arms Full of Sound

Here's something that's a total 180 from the music of Rufus. It's a band called Arms Full of Sound. It's actually one guy and he makes ambient music. He performs all the instruments on his albums (of which there are 3), plus mixes and produces his own work. It's kind of a laid back, groovy, float-y, electronic, mellow kind of sound. (Not very good at describing this kind of music, I know!)

I saw him perform last week in a local club and I think it was a sold out show! 'Course the room held about 60 people - hey, sold out is sold out!

Wanna check him out? Go to: <http://www.phpro.info/afos/main.html>

There are pictures of the recent live show as well, I believe.

I think you can also listen to the music there as well. Enjoy!

p.s. - did I mention it was my brother-in-law? here's my shameless plug for him!

"All the world I'm happy to see
And all the world it's going to be..."
